Avyna = Safety First!

Avyna, founded in 1999, is specialized in designing and producing safe trampolines, trampoline parts and accessories.

In addition to trampolines, we also sell self-designed inflatables, plus football and hockey goals. Our office and warehouse is located in Rijen and we have our own factory in Vietnam. The advantage of having our own factory is being able to control the entire process and too supply individual parts at all times.

- On the frame of an Avyna trampoline we always provide a lifetime warranty.
- Our Avyna springs include a ten-year warranty, and on our safety pads we give two up to five years warranty.
- Avyna trampolines are sold worldwide and comply with all NEN-EN 1176-1: 2017 and 7114-19 requirements.

More choice from 2021

In addition to the colors gray, green and camouflage, from 2021 you can also choose for a black trampoline pad. This black safety pad has an orange strip so you can clearly see the difference between the safety pad and the mat. This is not only safer, but also gives the Avyna trampoline a tight and beautiful look.

POWER SPRINGS

Power Springs

All Avyna trampoline springs are made of double galvanized steel so that they can't rust. The unique rubber cover cap on the ends of the springs closes hermetically and prevents you from getting hurt while touching the springs.

AIR X-TREAM

Jumping mat Air X-tream

The open structure of the jumping mat generates up to 70% more air permeability than regular jumping mats. Less air resistance creates a better jump, which makes you jumping higher. Also the safety pad will flap less which means less noise and resistance. The jumping mat is 100% UV resistant, has an extra 10cm flap to protect the springs and has a nice finish!

HQ STEEL

Frames HQ Steel

For decades, Avyna trampolines are being made from the best Taiwanese steel and are being produced in our own factory in Vietnam.

The heavy steel is double galvanized and makes rust almost impossible.

Avyna is the only one that gives a lifetime warranty on the trampoline frames.

TOP SAFE

Safety pad Top Safe

The extra wide and thick safety pads are made of high quality weather resistant vinyl in colors that perfectly match your garden. The thick foam filling does not absorb moisture and offers extra safety. The unique Avyna safety system covers the springs and the frame perfectly, does not flap or shift and guarantees years of safe jumps and fun.

ROYAL CLASS

Safety net Royal Class

The frames in the Avyna Enclosures are made of the same high quality and double galvanized steel as the Avyna trampoline frames.

The nets are made of colourfast and weather resistant material. The lockable safety entrance prevents accidents. The entire construction will even hold by jumping sideways into the nets by an adult on purpose, do not overturn and guarantees years of safety and fun.

CLICK & LOCK CAP

Caps (safety nets) Click & Lock Cap

With the Click & Lock Cap system, you can assemble the safety net in one second on the base. It ensures that the net cannot bend or shift.
